Dear Mr. Ayers:

In follow-up of your telephone conversation with Mr. J. William Haun, on September 3, 1981, I am enclosing herewith a copy of the report received from Soil Exploration Co. on August 20, 1981, with revised boring location map on September 1, 1981. This report contains the results of analysis of soil and groundwater samples of solvent contaminated area at the laboratories of the Henkel Corp., 2010 E. Hennepin Ave., Minneapolis, formerly owned by General Mills, Inc.

We have reviewed the data in this report but have not discussed the results with the representatives of the Soil Exploration Co. We find some anomalies in this data which we hope to clear up before we and our consultants meet with you to discuss further studies of this problem.

Sincerely yours,

Donald J. Thimsen, P.E.
Manager, Environ. Engr.
